PROFESSIONAL SUMMARY

Final-year B.Tech student (graduating July 2026) actively seeking full-time frontend roles. Hands-on experience building production-grade web applications using React.js, Next.js, and TypeScript across 3 internships. Passionate about clean UI, component-driven architecture, and accessible user experiences.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, Flask, REST APIs, MongoDB, MySQL

Tools: Git, GitHub, Postman, Vercel, Drizzle ORM, PyTorch, Streamlit

INTERNSHIP EXPERIENCE

Python Developer Intern — Kodbud

Aug 2025 – Sep 2025

- Built 4 Python-based CLI applications: a password generator, number guessing game, calculator, and rule-based chatbot, all delivered within defined sprint timelines.
- Practiced clean code principles and modular function design across each project.

Web Developer Intern — VaultofCode

Jul 2025 – Aug 2025

- Developed a personal portfolio website and a full-featured to-do application using HTML, CSS, and vanilla JavaScript.
- Redesigned and refactored a client web page, improving visual consistency and responsiveness across screen sizes.

Web Developer Intern — Codsoft

Jun 2025 – Jul 2025

- Designed and delivered 3 projects: a personal portfolio, a business e-commerce landing page, and a to-do app — all using HTML, CSS, and JavaScript.
- Focused on responsive layouts, semantic HTML, and cross-browser compatibility.

PROJECTS

NexaFlow CRM – Role-Based Workflow Manager

Next.js · TypeScript · REST API · RBAC

- Architected a scalable CRM with role-based access control (RBAC) supporting multiple user types with distinct permissions.
- Built automated task pipelines and workflow management features, reducing manual process overhead.
- Integrated modular REST API layer for clean data operations and maintainable architecture.

Luxe Jewelry Store – Full Stack E-Commerce Website

Next.js · React.js · Tailwind CSS · Firebase

- Developed a modern jewelry e-commerce platform with product listings, cart management, and checkout flow.
- Integrated Firebase backend for product storage, authentication, and dynamic product management.
- Built responsive UI components with Tailwind CSS ensuring smooth user experience across devices.

AI Resume Analyzer

React.js · TypeScript · AI Integration · Tailwind CSS

- Built an AI-powered resume analysis platform that evaluates resumes and provides smart improvement suggestions.
- Implemented resume upload, keyword matching, and ATS-focused feedback features.
- Designed a clean responsive interface with reusable components and optimized frontend performance.

Neural Cellular Automata Growth Simulator

Python · PyTorch · NumPy · Streamlit

- Trained a PyTorch neural network to simulate self-organizing cell growth from a single seed using Neural Cellular Automata.
- Implemented pattern regeneration and real-time growth visualization via an interactive Streamlit dashboard.
- Explored emergent AI behaviour and generative pattern dynamics through iterative model experiments.

EDUCATION

B.Tech in Computer Science & Engineering

Sep 2023 – Jul 2026 (Expected)

Dr. B.C. Roy Engineering College, Durgapur | CGPA: 7.55 / 10

Diploma in Computer Science & Technology

Sep 2021 – Oct 2023

Women's Polytechnic, Kolkata | 71%
